## THE GREAT RAIDERS

t the beginning of the war, the cavalry gathered intelligence. screened the army from the enemy's cavalry, and served as mounted pickets. In the East, Confederate cavalry commander J.E.B. Stuart raised the routine reconnaissance mission to the level of art when his command rode completely around the Federal army in 1862. Legendary partisan cavalryman John S. Mosby (the Gray Ghost) later harried the Union army to distraction in Northern Virginia.

In the West, three cavalry commanders, John Hunt Morgan, Nathan Bedford Forrest, and Joseph Wheeler attained legendary status. Wheeler, a West Point graduate, had spent most of his life in the North. Morgan had served briefly in the Mexican War as a private. Forrest was self-taught. All of them, regardless of experience, were bold, imaginative, and determined men who could usually out-think and out-fight their opponents.

John Hunt Morgan seemed a natural cavalryman. Tall, dashing, impeccably dressed, and finely mounted, Morgan was born to a prominent Kentucky family. In a series of raids in Tennessee and Kentucky, he appeared invincible regardless of the Federal forces arrayed against him. He

followed his July 1862 Kentucky raid with another in the winter in Middle Tennessee, destroying two railroad tunnels to disrupt Union supply lines for several weeks. Morgan led his most spectacular raid in July 1863,

rampaging

Gen. Nathan Bedford Forrest

tactics and his ferocious fighting ability made him the most feared of Confederate cavalry commanders. He built his reputation on a series of stunning raids against Union supply lines in

Gen. Joseph Wheeler Courtesy Library of Congress Courtesy Library of Congress

Newspaper illustration, "General Forrest Driving the Federals out of Trenton, Tenn. General Forrest in the Foreground Giving Orders." - Courtesy Tennessee State Library and Archives

Middle and West Tennessee. He also fought his way out of a Federal envelopment at Parker's Crossroads, adding to his legend. The apparent massacre of black Federal troops at Fort Pillow, Tennessee, on April 12, 1864, however, tarnished Forrest's legacy. After the war, Forrest returned to farming and pursued business interests. He died in Memphis on October 29, 1877. William T. Sherman, assessing Forrest's military career, pronounced him "the most remarkable man our Civil War produced on either side."

Joseph Wheeler began the war as a lieu-

tenant but became commander of the Army of Tennessee's cavalry by the fall of 1862. His successful raid behind Union lines before the Battle of Stones River made his reputation. In February 1863, he unsuccessfully attacked Dover to block Cumberland River shipping to Federals in Nashville. After the Battle of Chickamauga in the fall of 1863, Wheeler launched another spectacular raid against Union supply lines, riding up the Sequatchie Valley and then into occupied Middle Tennessee before returning to Alabama. After the war, Wheeler served in Congress and returned to U.S. Army service as a major general during the Spanish-American War and in the Philippines.

### TENNESSEE USCTs

he Emancipation Proclamation issued on January 1, 1863, author ized the enlistment of African American soldiers. By June, in Tennessee, Gen. Lorenzo Thomas had recruited 3,000 men. By the end of the war, he had enlisted 24,000 soldiers for 22 infantry regiments and 8 artillery units. Nationwide, 200,000 men served in black units known as U.S. Colored Troops (USCTs) and in the Navy.

White officers at first restricted

USCTs to support functions such as guarding wagon trains, supply depots, and prisoners. They also constructed forts and railroads, then were posted as guards. Eager to prove their worth in combat, the USCTs soon had their chance. In December 1863, at Moscow, the 61st USCT repulsed Confederate Gen. Stephen D. Lee's cavalry as it tore up railroad track. At Fort Pillow, on the Mississippi River, USCTs fought Gen. Nathan Bedford Forrest's command on April 12, 1864, then were overrun and killed after surrendering. For the remainder of the year, USCTs engaged Forrest at Brice's Crossroads and Tupelo, Mississippi, at Athens, Alabama, and at Pulaski, Tennessee. They also fought with distinction in the Battle of Nashville in December. The Tennessee USCTs mustered out of service between April 1865 and April 1866, having suffered about 4,500 casualties.

This map-guide identifies more than 350 Civil War sites throughout Tennessee. Each site is interpreted and accessible and encourages you to explore diverse settings where America's destiny was forged. Tennessee Civil War Trails sites can be explored at your own pace, and many offer other historical and recreational opportunities. Enjoy one of the numerous walking tours available in many communities. Shop at one of hun-

dreds of antique and specialty shops, dine at a historically-themed tavern, or simply walk amid the serenity of a preserved battlefield. Let the stories vou've discovered ignite vour imagination as vou envi sion how now-peaceful landscapes were once the scenes of the deadliest battles known to man.

The Tennessee Civil War Trails program is part of a five-state trails system that invites you to explore both well-known and less-familiar sites associated with America's greatest drama.

Ligically important for Cumberland Gap (the gateway to Virginia, Kentucky, and Tennessee) and the rail lines that connected Bristol, Knoxville, Chattanooga, and Atlanta, as well as Memphis and Richmond. President Abraham Lincoln appointed Andrew Johnson, a native of the region, Tennessee's military governor. Gen. Samuel P. Carter, a U.S. Naval Academy graduate, gained fame in East Tennessee as a cavalry raider. Ironically, the Federals held most of the secessionist areas, while the Confederates dominated the Unionist parts. Many Unionists who burned railroad bridges in 1861 were quickly seized and executed.

WAR IN EAST TENNESSEE

argely Unionist East Tennessee was strate-

Union Gen. Ambrose E. Burnside occupied Knoxville in September 1863, while Confederate Gen. Braxton Bragg occupied Chattanooga. Union Gen. William S. Rosecrans forced Bragg out. After the Battle of Chickamauga, Georgia, the Federals occupied Chattanooga, which Bragg then besieged, dispatching Gen. James Longstreet to attack Knoxville. The Federals broke Bragg's siege at the Battle of Missionary Ridge, compelling him to retreat, and Longstreet likewise suffered defeat at Knoxville. By the end of the year, East Tennessee was firmly in Union hands, and the rail line to Georgia was open. In May 1864, Gen. William T. Sherman used Chattanooga as the platform for his Atlanta campaign. No other large-scale battles occurred in the region for the rest of the war. Late in 1864, the Federals launched cavalry raids against the railroads from East Tennessee into Virginia and North Carolina
